

Ciguatera Fish Poisoning Science Day

27th of March 2019

Hosted by SafeFish and Queensland Health
Forensic and Scientific Services

An Australian workshop with invited international experts to link researchers, regulators, food authorities, health departments and fisheries. The workshop will present the latest ciguatera research to inform the later prioritisation of Australian research objectives.

Keynote speakers

Opening: Mireille Chinain (French Polynesia)

Ecology: Alison Robertson (USA) and Shauna Murray (AUS)

Epidemiology: Clémence Gatti (French Polynesia) and Russell Stafford (Aus)

Toxicology: Tim Harwood (NZ) and Richard Lewis (AUS)
